

進食後，有假牙者
應先取出假牙，
然後清潔。

The dentures should
be removed and
cleaned after feeding.

餵飼後，要立即清潔口腔。清除口腔內的食物殘渣，保持口腔濕潤，預防黏膜出現乾燥破裂，減低口腔發炎及口氣。

Remove the food residue from the mouth after feeding, so as to minimize the risks of oral infection and bad breath. Perform mouth care to maintain oral hygiene and moistening after feeding, which helps to prevent dryness and damage of the oral mucosa.

清潔口腔時，避免弄傷口腔黏膜。

Avoid oral mucosal damage during mouth cleansing.

清潔口腔後，抹乾病人的嘴唇，並塗上潤唇膏。

Apply lip moisturizer onto lips after mouth cleansing.
